PARIS, April 28. N OFFICIAL exposition of France's present position as regards German reparations has been given the Post-Dispatch by the Foreign Office. The Foreign Office statement follows:

"The total cost of the war to France amounts to 500,000,-000,000 francs. The French foreign debt before 1914 was nothing; the foreign debt in 1920 totaled 84,000,000,000 francs.

accept—about 140,000,000,000 francs at the present rate of ex-change, or 28 per cent of her total war expenditures, and 63 per cent of the total reparations due her under the treaty. Germany, however, has falled to make the payments required by article 235 and has rejected the Paris con-

Judge Faris Fines Saloonkeeper \$100 on Dry Agent's Complaint but Stays Penalty.

On the recommendation of United States District Attorney Carroll today, Federal Judge Faris extended clemency to Joseph Retnier, a former saloonkeeper at 1804 Lafayette avenue, on the ground that Federal prohibition enforcement agents had no right to search a saloon icebox without a search warrant or the pro-prietor's consent. The Judge fined Retnier \$100; but stayed the fine.

The District Attorney cited a re-cent ruling of the Federal Court of Appeals in Chicago that a search warrant or consent is necessary before a saloon icebox could be legally searched for liquor.

Judge Faris also stayed a \$100

fine which he assessed against Peter Dolcimasiolo of 2001 Edwards street, where mash was seized by agents who had no search warrant. The fines were recorded so that a further violation of the law will constitute a second offense. Both defendants had pleaded guilty.

Joseph Finnegan, member of a club at 4001 South Broadway, was fined \$100 on his plea of guilty. He told the Court he was unfortunate in having been the only member in the clubrooms when agents found two bottles of whisky there.

38,405 POLICE CIRCUS TICKETS SOLD NOT USED

55,426 Were Sold in House-to House Canvass-Receipts of Event Totaled \$80,221.

Of 55,426 tickets to the Police Circus, sold by policemen in their recent house-to-house canvass of residence and business districts, 38,405 were not used by the purchasers or anyone else. The tickets sold for \$1 each, and each was good for two admissions to the unreserved seating space of the Coliseum. The circus, which was the annual benefit of the Police Relief Association, was held April 7 to 17, inclusive.

The total receipts were \$80,221.65, and the expense \$30,721.24. leaving a profit of \$49,500.41 to the Police Relief Association. These figures ap pear in the report of Joseph V. Walker, secretary of the association, submitted yesterday to the Police Board.

\$17,021 From Sale of Tickets. The \$1 tickets did not include war tax, which had to be paid by the user at the box office. The report accordingly shows the receipts from sale of tickets which were used, under the head of "Sale of ticketa," as being \$17,021. Receipts from the sale of tickets which were not used are shown under the head of "Tickets, act of donations," and this item was \$38,405. Tickets sold at the office brought an additional \$5414.

It has been the custom of bustness men to buy 10 to 50 tickets to the annual police benefit entertainment, and this has come to be expected by the policemen who canvass the business districts. Some of these purchasers give the tickets to their clerks, but the large number of unused tickets indicates that the greater part of the tickets were thrown away or forgotten. canvass of the residence district, each householder was asked to buy at least one \$1 ticket, for two admissions. Some persons used these dou-ble tickets for one admission, so that the number attending was somewhat less than twice the total number of dollars shown as being received from used tickets, or 44,850, an average of about 2000 at each of the 22 per-

formances. War Tax Totaled \$1930. The war tax collected on tickets

which were used, and paid over to the Government, amounted to \$1930. Receipts from advertising in the ircus program were \$14,815.15, and there was \$1000 received from concessions. The total received for reserved seats was \$442.50, and for box seats \$1194.

The expenses include \$13,307.60 to performers in the circus; \$5926.05 to John J. Warden, who had charge of the program advertising, on a 40 per cent basis; \$4000 rental for the, building; \$2330 for musicians and \$1340 for stage mechanics.

\$716,000 Paid in 19 Years. The historical review of the Partie Relief Association, which appears in the program, states that in the 19 years previous to this year, it paid to policemen's widows and orphans, and to veterans, \$716,000. In this period there were 368 deaths. The sum paid to the family of a policeman who dies is now \$3000, this having been increased from \$2000. At e same time, the dues paid h raised from 50 cents to \$2 a month. In case of a death, if funds are short, essment up to \$3 can be made

Sentiment for Disarma-ment Are Defeated.

WASHINGTON, April 28.—After defeating all amendments designed to register sentiment towards disarmament, the Hous epassed today the annual naval appropriation bill carrying \$396,000,000 of which \$90,000,000 is for continuing construction on vessels. The bill now goes to the Senate. No roll call was ordered, but on a rising vote the Speaker announced 212 members for the bill and 15 against it.

NEWSPAPERS RENTED IN CHINA

China a man may "rent" his news-paper if he so desires instead of buying it outright. J. W. Sanger, American Trade Commissioner, who has just arrived from Pekin, is authority for this statement. When the daily news is subscribed for on a rental basis, according to Sanger, the first subscriber pays the top price. At an agreed time the paper is taken from him and delivered to the second man on the list, who gets it a little cheaper. "Thus it passes on from hand to hand, getting ever cheaper, dirtier

and more forlorn, until finally nothing is left but shreds," said the Moramec River Still Rising.
The Meramec river at Valley Park
day had reached a stage of 21.4 feet and reports received by the Weather Bureau showed it was out of its banks in many places. No ser-lous damage has been reported. The Weather Bureau said the crest probably would be reached tonight at

WOMAN EVANGELIST

More Than One Hundred Persons Anointed With Oil in Moolah Temple.

Mrs. Aimee Semple McPherson of Los Angeles, undenominational evangelist, who opened a three weeks' series of revival meetings in Moolah Temple, 3821 Lindell boulevard, last Sunday, conducted her rst "healing service" there last night. All of the seats in the hall were taken except a few at the back of the balcony. The greater portion of the first floor was eserved for invalids and their rela-

tives and friends. Mrs. McPherson, clad in white, made a preliminary address, in which she told an extraordinary story of how faith had cured her. She said that while in Findlay, O., she fell down a flight of steps and broke her foot at the instep. A doctor, she said, told her it would be months before she could walk, and possibly she would never walk again. Two days after this accident, she said, she was in Chicago, with her foot in a plaster cast and suffering great pain, when the Lord seemed to speak to her and tell her to wrap up her shoe and go to a minister of the gospel and have him pray for her. She did this, she said, and after a few minutes prayer her broken foot was entirely healed and she put on her shoe and stocking and walked without pain or incon-

More than 100 persons, some walk-ing with crutches, passed in line before her on the stage last night. In each instance she annointed the forehead of the afflicted person with oil and offered up a prayer. The sing-

One man said to be paralyzed on
the right put aside his crutch
and walked down a flight of steps
to the auditorium. A short time
later his crutch was returned to im and he walked out of the hall

carrying it on his shoulder.

Another instance was that of a young woman who walked halting-ly in the line un Mrs. McPherson had prayed for her. Mrs. MoPher-son announced that the young woman had stiffening of the spine and had been unable to bend forward. "Now, sister, the Lord has made you whole," she said. "See if you can bend backward." The young woman bent backward with almost acrobatic skill and then further startled the audience by bending forward and touching the floor with her finger tips. She ran down the steps from the stage and resumed her seat in the auditorium and engaged in animated conversation with persons sitting near her.

A woman who had been taken the stage in a wheel chair was liftted to her feet and walked across the stage, supported by Mrs. Mc-Pherson and one of her assistants. She made a few steps without sup-

To the Editor of the Post-Dispatch.

The present seating arrangement in many of the St. Louis moving-picture theaters ought to be changed.

Why are the seats placed directly behind one another? Why not stagger them as bricks are placed in a wall?

The staggered arrangement will enable everyone, large or small, to get an unintersupted view of the screens, without having to crane the peck to one side.

For a small sum, all the seats can be shifted, and no longer will you or I be apprenhensive lest we sit behind a tall person.

It is pretty hard to save those who live by the sword from the consequences of that life. Nevertheless, most of us would like to see Col. George Harvey better done by than he has usually done by others. He cannot quite be that monace to society which Senator Pat Harrison thinks he is, and we are grateful to our own Jamie Reed for rising in protest. Our Jamie lives by the sword, and nobody has ever cared to tell us that you can know and not-like him. Nobody knows better than our Jamie now deceiving the conduct of those who live by the sword ordinarily is. That one can roar like a lion is no sign that one cannot be as sweet as a sucking dove. Take our Jamie. Col. George Harvey is indeed a very fierce man in opposition, but don't you know that in the days when he was making Mr. Wilson President of the United States he was exuding honey from the same spout which was afterward to spurt gall all over Mr. Wilson? People of that sort are no worse than the rest of us: they are only more versatile. We hope Col. Harvey does nicely in London, and he will do nicely if he does nicely. He is a very representative man of our time, and we do not know why his ambition should not be gratified as well as that anyone's should. Certainly his habit of liking or disliking very intensely is nothing rare. It is a fault to hate—but let at the Colonel sitting up there among the British bigwigs.

The MIRROR of PUBLIC OPINION

A NATIONAL AIR POLICY. the New York World.

THE national air policy recommended to Congress by President Harding calls for no radical changes from existing conditions. It leaves the army, the navy and the Post Office Department each in control of its separate air service, while providing for co-operation, such as now exists, between the various air services. Where the President's policy shows progress is in the promise of greater encouragement to aviation and provision for sustained scientific research For two years Congress has had no settled aviation policy. It has divided on the issue of the establishment of a centralised department controlling all air services, army, navy, postal and commercial, and the controversy has not only delayed definite action looking toward an intelligent policy, but has helped to kill interest in aviation. fight hard for enough money barely to keep in operation their separate aviation branches. If at the instance of President Harding Congress again takes up seriously the aviation question it may still repair the harm caused by its neglect. The one thing it has accomplished since the war has been to force the United States to fall far behind Great Britain and France in the developme aviation and the aircraft industry.

PROHIBITION ENFORCEMENT.

From the San Francisco Chronicle. W HILE, as we have said, different people were governed by different motives in voting against the Harris bill (for the enforcemen Federal prohibition), we imagine that the fol ing reasons were the most potent: There is no obligation on any State to enact laws for enforcing or interpreting the Federal Constitution. It is our duty to obey, but not to enforce. The powers of Congress are ample and have been exer Should the State act and Congress subsequently amend the Volstead act, there would not be un formity among states. The saloons have gone for good and the interference with family habits pro-posed is too drastic and impairs loyalty, especially among alien-born residents and citizens. It is among allen-born residents and citizens. It is never wise to attempt the enforcement of any law when the minority—and especially a majority— is so strongly opposed to it. It breeds evasion or violation of the law and thereby increases the spirit of lawlessness, which is our national vice. In that way the evil resulting greatly outwelphs the good and loosens the very foundations of sothe good and loosens the very foundations of so-clety. With the law as it is give us time to adjust ourselves to it or modify if we so de

EUROPEAN NEWS AND PROPAGANDA From La Domenica Illustrata (New York Ralian.) THE American public has always looked upon the foreign propagandist with a certain de-gree of distrust. This feeling is all the more em-phasized now that revelations are being made of the "Inside" of the peace conference by books as that of Lansing, which has just appearand that of Tardieu, which is about to be lished. It begins to be apparent that the peace negotiations only accentuated the selfishness of man in an effort to gain an advantage not only over his enemy, but over his own associates. Also that the paid propagandist was engaged to color news to suit the case at a specific period in the progress of the negotiations. The American pub-lic does want to be enlightened about European affairs. It is not true, even though Pre Harding seemed to infer so, that America to have nothing to do with European affairs.

Americans recognize that, while it is very easy to
break political bonds with Europe, we are too
much bound from an economic standpoint to be
totally isolated from Europe. THE President's visit to the United States has been dis-appointing to the friends of a league in that he falled to rally to the support of the covenant so overwhelming a popular sentiment in its favor that the opposition in the Senate could not resist it. The natural reaction was that the peoples of Europe and their statesmen lost a meas-ure of their enthusiasm and faith in the project. Except in the case of a few idealists, there was a growing disposition to view it from the purely practical point of view and to speculate on its efficacy as an instrument to ineincacy as an instrument to in-terpret and carry out the inter-national will. Among the lead-ers of political thought in the principal allied countries, the reports of the President's re-ception in the United States were sufficiently conflicting to arouse doubt as to whether the American people were actually behind him in his plan for a league, and this doubt was not diminished by his proposed changes in the covenant, which indicated that he was not in full control of the situation at home

The opening same of the series between the Cardinals and Circinnet. scheduled for this afternoon, was called off because of rain and wet grounds. The storm which broke at 2 o'clock made it impossible to play.

George Gibson and his league-leading Pirates are cruel. Bors, when anybody gets so tough that they'll see any glee in making a terrible blushing spectacle out of poor little harmless Jakie May, who has won more games this season than all the rest of the Cardinal pitching staff put together, then it can be said without reservations that they're double tough.

Why they embarrassed Jakie terribly. They made him forget what shape the world is, where the sun rises and sets, and took advantage of his youth terribly. But it was all new to Frank Spruell May, yelept by his buddies, Jake.

It all happened to Jake in the fourth inning. Nobody was out, and Earl Hamilton was the batter. Hamilton has been all over the world, including Eads Bridge, which he once explored in daring fashion. Earl is what you might call a downtown fellow. And he popped a bunt at Jakie May. The ball came in contact with the bat off the center of its mass, and rotated at great speed, as balls are wont to rotate when ley are hit just that way.

The Awakening of Jakie May. The result was a harmless looking Sher pop fly which Jakie chose for his Left on very own. He came in gently but firmly and majestically waved aside all would-be interlopers. This was

The result was that friend apples overlooked by the apple-knockers plunked him on the conk. The baseball, spinning as hereinbefore described, struck Jakie's outtheir best and threw Jakie at it. The following summarized description of these Joint 61/2% Convertible Bonds has been prepared for us by Howard Elliott, Esq., Chairman of the Northern Pacific Railway Company, and Louis W. Hill, Esq., Chairman of the Northern Pacific Railway Company, and Louis W. Hill, Esq., Chairman of the Great Northern Railway Company, from their letter to us dated April 25, 1921:

Security The Joint 15-Year 61/2% Convertible Bonds are to be the direct and joint obligations of the Northern Pacific and of the Great Northern Railway Companies, and are to be secured by a pledge of 1,658,674 shares (approximately 97% of the outstanding stock) of the Chicago, Burlington and Quincy Railroad Company (which percentage of stock has heretofore constituted the sole collateral security for the maturing "Burlington Joint 4s"), and in addition by \$66,000,000 of mortgage bonds of the two obligor Companies, the deposited collateral being valued at an amount in excess of 120% of the principal amount of Joint 61/2% Bonds

Earnings During the ten and one-half years from 1911 to 1920 inclusive, the combined average surplus income of the Northern Pacific and Great Northern Railway Companies, after payment of combined fixed charges, other than the interest on the outstanding joint bonds which are to be refunded by the new issue, was about \$44,000,000 annually, and, in addition, the share of the two roads in the surplus income of the Chicago, Burlington and Quincy Railroad Company, after the payment of its fixed charges, averaged about \$20,960,000 annually, the total annual average being about \$64,960,000 as compared with \$14,950,000 which will be required annually for interest on the new issue of Joint 61/2%

Equity Since July 1, 1901, the Chicago, Burlington and Quincy Railroad alone has increased its surplus in the amount of approximately \$200,000,000 against which no securities prior to the stock have been issued. The combined net assets of the Northern Pacific and of the Great Northern, after deducting their prior debts, together with 97% of the net assets of the Chicago, Burlington and Quincy Railroad, after deducting its debt, indicate an equity, at book value, for these properties of close to \$1,100,000,000.

The above bonds are offered, subject to issue as planned, for subscription at 961/2% and interest, to yield approximately 67/8%

Discount will be allowed at the rate of 61/2% per annum on the principal sum of the Bonds from the date of payment to July 1, 1921, from which latter date interest will accrue on the Bonds.

Again Quotes From His Memorandum.

Two weeks after the President had resumed his duties as a negotiator and had begun the work of revising the covenant, I made a memorandum of my views as to the situation that then existed. The memorandum is a follows:

March 25, 1919

With the increasing march can possibly the League of Nations to give it standing as a useful and necessary adjunct to the treaty.

At least that is an interesting view of what is taking place and opens a wide field for speculation as to the future of the league and the verdict which history will render to its real value.

I quote this memorandum hereal its real value.

With the increasing military preparations and operations throughout Eastern Europe and the evident purpose of all these

ritory and rights, the League of Nations is being discussed with something like contempt by the dynical, hardheaded statesmen of those countries which are being put on a war footing. They are cautious and courteous out of regard for the President I design the care of the president in the care of the gard for the President. I doubt if the truth reaches him, but it comes to me from various sources. "These men say that in theory the idea is all right and is an ideal to work toward, but that under present conditions it is not pratical in preventing war. They ask, what nation is going to rely on the guaranty in the Covenant if a jealous or hostile neighbor maintains a large army. They want to know whether it would be wise know whether it would be wise or not to disarm under such conditions. Of course the answers are obvious. But, if the guaranty is not sufficient, or accepted as sufficient, protection, what becomes of the chief reason for creating it?

"I believe that the President and Col. House see this, thought they do not admit it, and that to says the league from being cast into the discard they will attempt to make of it a sort of international agency to do certain things which would normally be done by independent nternational commissions. Such a course would save the league from being still-born and would so inter-weave it with the terms of peace that to eliminate it would be to open up some difficult questions. "Of course the League of Nations as originally planned had one iu preme object and that was to pre-vent future wars. That was sub-stantially all that it purposed to do Since then new functions have been gradually added until the chief ar-

gument for the league's existence has been almost lost to sight. The league has been made a convenient 'catch-all' for all sorts of interna tional actions. At first this was undoubtedly done to give the league something to do, and now it is be-ing done to save it from extinction from being ignored. "I am not denying that a common international agent may be a good thing. In fact, the plan has decided merit. But the organization of the

eague does not seem to me suitable o perform efficiently and properly these new functions. "However, giving this character to the league may save it from being merely an agreeable dream. As the repository of international controversies requiring long and careful consideration it may live and be

"My impression is that the principal rponsors for the league are searching through the numerous disputes which are clogging the wheels of the conference, seizing upon every one which can possibly be referred, and heaping them on the League of Nations to give it.

Those are two all-important rules for happiness in married life, according to the Rev. Carl Wallace Petty, D. D., of the Mount Morris Baptist Church, New York City. Dr. Petty has been giving a series of flunday evening "hearthstone talks."

There is no sense in worrying about what you can't help. You cannot, even by putting forth your most strengous efforts, straighten out the Russian muddle, or restore the commerce of the world. A HARD-LUCK STORY. ing up wounds

When I fell down and broke my head
In last year's elippery weather,
The doctor used magenta thread
In sowing it together.
But when they took me to my home,
Though very neatly jointed
Appeared the fracture in my dome,
My wife was disappointed.
She tossed my waving locks about
With murmurs of affection
And said, "Those stitches must come out;
They don't match your complexion."

And so they made another nick
Which bled with free effusion,
And with a thread of smothered brick
They sewed up the contusion.
But as the thread began to fade
It grew a little duller,
And in a week or two displayed
A wholly different color.
And when this burst upon her view
My wife, in consternation
Exclaimed, "Dear me! They'll have to
